# Enjoy A Legacy of Comfort

## Reliability and Value Since 1904

North American homeowners recognize reliability and value when they see it. That's why they've put their trust in Bryant® for indoor comfort, superior quality, and peace of mind since 1904. We've built our reputation with a commitment to excellence every step of the way from initial product development to final assembly and testing. Today, as consumer expectations for comfort and reliability continually evolve, Bryant responds with products like the Model FX4 fan coil.

The Model FX4 fan coil helps your heat pump offer the comfort and efficiency you deserve. This model is specifically developed for use with environmentally sound Puron® Refrigerant. Designed, built and backed by the most reliable source for comfort and installed by your trusted local Bryant dealer, the Model FX4 fan coil is an excellent choice for efficiency, comfort and value you can trust.

## A Perfect Match for Reliable Comfort

Bryant fan coils help deliver maximum performance from your Bryant heat pump system because they have been designed to be a perfect match. That means when your system calls for comfort, you can count on responsive, reliable heating and cooling all year long. The Model FX4 fan coil offers solid,

lasting performance with a tough, 20-gauge steel cabinet that is pre-painted for an attractive, durable finish. Inside, our copper tube, aluminum fin coil maximizes heat transfer and minimizes performance-inhibiting corrosion.

## Indoor Air Quality and Comfort

Bryant fan coils feature a high-tech composite condensate pan with brass inserts that will not corrode. Proper drainage helps eliminate the potential for growth of mold, bacteria and other airborne pollutants to

protect the quality of the air you breathe. Additional quality measures include 1" thick cabinet insulation and airtight construction to keep conditioned air moving through your system and out into your living areas.

# Part from Your Bryant Heat Pump System

## Warranty

To the original owner, the Bryant model FX4 fan coil is covered by a 10-year parts limited warranty upon timely registration of your new equipment.\* Ask your Bryant dealer about optional extended warranties, which may include labor.

\*Warranty period is 5 years if not registered within 90 days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts limited warranty. See warranty certificate at [bryant.com](http://bryant.com) for complete details.

## Performance

## Environmentally Sound Puron® Refrigerant

The Model FX4 uses environmentally sound Puron Refrigerant. For many people, that's an important consideration because Freon®-22\*, the refrigerant most commonly used in fan coils, is gradually being phased out of existence due to concern over the Earth's ozone layer. By choosing the Model FX4 with Puron Refrigerant now, you are helping preserve the ozone layer while enjoying the benefits of superior reliability associated with our Puron family of products.

\*The registered owner of Freon is E.I. DuPont de Nemour & Co.

## DuraCoat™ Protection for Peace of Mind

Premature indoor coil corrosion affects many home comfort systems. To combat this potential problem, Bryant offers optional DuraCoat™ protection. DuraCoat provides a tin plating of the indoor coil's copper hairpins. This creates a barrier between the corrosion – causing elements and the coil. No other manufacturer in the industry presently has an acceptable solution for this specific indoor coil corrosion issue, making Bryant the choice for worry-free comfort.

## Indoor Comfort Technology

- 1 ENVIRONMENTALLY SOUND**  
Our Model FX4 fan coil is designed for use with Puron® refrigerant to provide years of environmentally sound, trouble-free performance.
- 2 ENHANCED COMFORT**  
Our Thermostatic Expansion Valve (TXV) ensures proper refrigerant flow during fluctuating pressures and conditions for top reliability and energy-efficient operation.
- 3 HIGH ENERGY EFFICIENCY**  
Bryant's energy-efficient blower reliably delivers heated and cooled air to your home while preserving the efficiency of your heat pump system.
- 4 LASTING LOOKS AND PERFORMANCE**  
The sturdy, 20-gage cabinet is painted with a durable, scratch-resistant coating for years of corrosion-resistant good looks.
- 5 DURABILITY AND DRAINAGE**  
The condensate pan is made of a high-tech, corrosion-free composite material. Integrated sloped drainage helps reduce build-up of mold, bacteria and other airborne pollutants.
- 6 LONGER LIFE**  
Some models offer DuraCoat™, a special tin plating of the coil to reduce the threat of formicary coil corrosion.
