Enjoy Reliable Indoor Comfort

Bryant® Delivers Peace of Mind

Bryant has a history of doing whatever it takes to deliver trusted quality, comfort and value to millions of homeowners nationwide. Today, with rising consumer awareness of environmental issues, Bryant proudly offers an answer that eases those concerns while delivering solid, reliable comfort - the Model 213B Heat Pump with Puron® refrigerant.

The Bryant Model 213B helps preserve the integrity of the Earth's ozone layer by using Puron® refrigerant. It delivers reliable comfort at an economical 13 SEER cooling and up to 8 HSPF heating efficiency. And, with its Microtube™ Technology refrigeration system, the quiet, reliable scroll compressor, and our tough, DuraGuard™ protection package, it provides responsive comfort you can count on, year after year.

Enjoy the Comfort of Trusted Reliability

Relaxing in the comfort of your home is easy with the Model 213B because this is one durable and reliable heat pump. Durability is built-in with our DuraGuard™ protection package that looks good for years while protecting the outdoor coil from sports and lawn equipment and more. Inside, corrosion-resistant components and compressor-protection features help ensure this heat pump delivers comfort when you need it.

In addition, Bryant's Model 213B provides the peace of mind that comes with choosing a system developed by a company known for its commitment to customer satisfaction. From initial design through product testing and an assembly process that includes our 5-step, 100% run test, we go beyond the industry's expectations for quality and reliability to be sure that every unit we make measures up to even tougher standards – yours.

Warranty

To the original owner, the Bryant Model 213B heat pump is covered by a 10-year parts limited warranty upon timely registration of your new equipment.* Ask your Bryant dealer about optional extended warranties, which may include labor.

*Warranty period is 5 years if not registered within 90 days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts warranty. See warranty certificate at Bryant.com for complete details.

Performance

Perfect Your Comfort with Perfect Humidity™

The Model 213B is your trusted source for comfort all year long. For enhanced control over temperature AND humidity, add a variable speed gas furnace or electric fan coil and our Thermidstat™ Control. This system will give you full, seven-day-a-week programmability and our comfort-enhancing Perfect Humidity™ function. Perfect Humidity elevates your comfort by providing up to 30 times the humidity control of standard heat pump systems.

The Thermidstat™ Control is much more than just a thermostat. It is your single source of precision temperature, humidity and indoor air quality control.

Step Up to HYBRID HEAT®

As energy costs continue to rise unpredictably, Bryant offers a solution you can get comfortable with - HYBRID HEAT®. By combining the Model 213B heat pump with a variable speed furnace and matching control, a HYBRID HEAT system automatically selects the most economical heating source for your heating needs. This system gives you the ultimate in flexibility to maintain your comfort as weather conditions and energy prices change.

Environmentally Sound Comfort, Future Savings

With the Model 213B, you join the growing ranks of homeowners who choose environmentally sound Puron® refrigerant. It's an important consideration because Freon®-22*, the refrigerant most commonly used in heat pumps, is gradually being phased out of existence due to concern over the Earth's ozone layer. In fact, manufacturers such as Bryant will no longer be able to manufacture Freon-22 products as of January, 2010. While these products may continue to be available as inventories last, costs to service heat pumps using Freon-22 may rise as supplies dwindle. By choosing the Model 213B with Puron refrigerant now, you are helping preserve the ozone layer while protecting yourself from potentially expensive service costs down the road.

*The registered owner of Freon is E.I. DuPont de Nemour & Co.

Home Comfort Components

PURON® REFRIGERANT

Bryant's environmentally sound refrigerant keeps you comfortable season after season without depleting the Earth's ozone layer.

1 ENVIRONMENTALLY SOUND

Our scroll compressor is designed for use with Puron® refrigerant to provide quiet comfort and years of environmentally sound, energy-efficient performance.

2 RELIABLE PERFORMANCE

Bryant's Microtube™ Technology refrigeration system with copper tube/aluminum fin coil maximizes transfer of heat outside your home to ensure energy efficiency. Coil materials and design minimize chances for rust and corrosion for lasting performance.

3 LASTING COMFORT

A filter drier protects the unit's most important single component: the compressor.

4 BUILT TO LAST

Bryant's DuraGuard™ protection package ensures lasting durability and good looks through years of exposure to weather, sports and lawn equipment and more. Three key elements to this package include: galvanized steel cabinet, baked on powder paint and dense wire coil guard.
