Reupert was one of only two contractors who listened to my concerns for upgrading and sizing the new system to best perform for our situation (most contractors just wanted to replace with the same size system). Our house suffered during hot sunny days due to a lot of high ceilings and southwest exposure with a lot of windows. Reupert was able to redesign some of our ductwork, and install a slightly larger air conditioner, which has made a big difference in the overall comfort of our home. In addition, the new system is much more efficient with a variable speed blower and multi staged a/c compressor. We have had significant utility bill savings monthly compared to the old system.</p> <p>Reupert's prices were very competitive with other contractors bidding similar equipment, and they offered the best warranty for higher end equipment. They were also prompt and professional throughout the entire process. I will use Reupert again in the future, and I would recommend to a friend.</p>	<p>Overall A</p> <p>Price A</p> <p>Quality A</p> <p>Responsiveness A</p> <p>Punctuality A</p> <p>Professionalism A</p>
