

10/1/2015

We selected Reupert Heating and A/C to install our new furnace and air conditioner because of our excellent previous experience with them.

Our new equipment is the Bryant Evolution System: their most efficient (96.5%) furnace, humidifier, and air conditioner. All units have a 10-year labor and parts warranty.

The 2-day installation went smoothly, and the technicians were very competent and thorough. They provided detailed information as needed and gladly answered all of our questions.

We are very pleased with our new equipment from Reupert, and we highly recommend them. They are a first class organization.

Dear Jeff,

The above testimonial is what we sent to Angie's List. I just thought you may want to know.

Janet and I very much appreciate your installers and follow up and thank you for your professionalism.

Regards,

Janet and Mike Gramza
